PLEASE READ: All of the fine and performing arts and elective courses on the reverse are half-credit, meeting either four times a week for one semester or two times a week for the entire year. Semester classes are marked with an **S**. Please keep in mind when making your selections that it is often impossible to accommodate a mix of semester and year-long half-credit courses (even with study halls; see the study hall policy below).

STUDY HALL

The official study hall policy, as explained in the Curriculum Guide, states that students are limited to four study hall periods per week. This means that, during a semester, a student can have one period that is always study hall, or two periods that alternate study hall with a course. It is against this policy for a student to have one year-long every-other-day study hall along with one semester-long every-day study hall, as this leads to too many study hall periods per week during one semester.

WORK FOR PAY

Any student interested in work for pay must contact the appropriate department for which he or she intends to work.

GENERAL NOTES

A standard ninth grade load consists of five core classes (English, History, Language, Math, Science) plus PE and Health. These courses total 6.5 hours, leaving room for only one half-credit course, which must bounce with Health (and so must meet twice a week for the entire year). In particular, Speech and Lab Tech will not fit in such a schedule. Students who are interested in having room for more or different classes have two options: ninth grade History can be taken in the summer before the ninth grade year or PE can be put off until 10th grade.
